Guiding

The rates for professional guides are fairly even across Slovenia and usually start at 150 Euros per day for 1 person with an additional 30 Euros per extra person. I can organise the guiding or please feel free to contact them directly. Half days are available and discounts for more than 1 day. All the guides speak excellent English.

I really do advise spending some time with them as they can make all the difference to your fishing holiday. These guys spend over 150 days per year on the river guiding or fishing themselves so know the rivers, conditions, fish and appropriate flies. They offer excellent tuition and technical advice and are very skilled at spotting fish. Gregor from novak is also a Professional fly tier and can ensure your fly box is fully stocked with the right patterns.

I also act as guide but am not a professional; the apartments and farm have demands on my time. I do however fish myself at least 4 times per month as well as accompanying guests. My role is guide, driver, translator, photographer, Sherpa, entomologist, ... I know the local area and am constantly exploring new places to fish. I cannot offer the same technical advice as a professional but sometimes this isn't required. My rate is €80 per day including local transport (€40 half day).
